FORMACIÓN ACADÉMICA

Doctorado en Fisicoquímica Molecular
Universidad Andrés Bello
Santiago, Chile (2017- en curso)

Magíster en Neurociencias
Universidad Autónoma de Chile
Santiago, Chile (2019- en curso)

Químico Ambiental
Universidad de Chile
Santiago, Chile (2010-2016)

PARTICIPACIÓN EN PROYECTOS DE INVESTIGACIÓN

- Marzo 2019 - actualidad. Universidad Andrés Bello / Pontificia Universidad Católica de Chile. Santiago, Chile. Tesis doctoral “Diseño, síntesis y caracterización de complejos de tierras raras para posible aplicación en terapia fotodinámica. Estudio teórico y experimental”.
- Marzo 2016 - Enero 2017. Fraunhofer Chile Research, Santiago, Chile.
Proyecto FONDECYT N° 11140476 “Development of light-active targeting units (laTU) for nanocarrier surfaces”.
- Septiembre 2015- Enero 2017. Pontificia Universidad Católica de Chile, Santiago, Chile.
Proyecto FONDECYT N° 1130707 “Synthesis, characterization and theoretical study of Curcumin derivatives, candidates as new biological active compounds”.
- Marzo 2016 – Diciembre 2016. Universidad Autónoma de Chile, Santiago, Chile.
Proyecto FONDECYT N° 1140770 “Astrochemistry: Modeling formation and destruction pathways of molecules and molecular ions. A theoretical chemistry study”.
- Septiembre 2013- Agosto 2015. Universidad Bernardo O’iggins, Santiago, Chile.
Proyecto FONDECYT N° 1130707 “Synthesis, Characterization and Theoretical Study of Curcumin Derivatives, Candidates as New Biological Active Compounds”.

PARTICIPACIÓN EN EVENTOS CIENTÍFICOS

- 11th Workshop of Computational Chemistry and Molecular Spectroscopy. “Design, synthesis and characterization of rare earth complexes for potential application in photodynamic therapy. Theoretical and experimental study”. Octubre 2018. Concón, Chile.
- 3rd version of the International Conference on Material Science. “Powder diffraction data of (E)-2-{[(2-Aminopyridin-3-yl)imino]-metyl}-4,6-di-trt-butylphenol”. Octubre 2017. Valdivia, Chile.
- 10th Workshop of Computational Chemistry and Molecular Spectroscopy. “Synthesis of new pyrazoles and isoxazoles complexes as dyes for DSSC”. Octubre 2016. Punta de Tralca, Chile.
- 32^o Congreso Latinoamericano de Química CLAQ. “Synthesis of new piridazynes with possible applications as pesticides”. Enero 2016. Concepción, Chile.
- 3rd version of the International Conference on Material Science. “Formation and destruction pathways of HCO⁺”. Octubre 2015. Valdivia, Chile.
